Dear Director Tokuda:

On behalf of the National Association of Women for the Arts (NAWARTS) and the Women of Asia Arts Initiative, I extend my heartfelt thanks to the Japan UN Friendship Associations for your kind contributions to the Women of Asia Concert on March 18, 2012 at Merkin Concert Hall in New York City.

Your financial support has made it possible for NAWARTS to raise the visibility of the global achievements of women who impact the world through the power of the Arts.

Through the Women of Asia Arts Initiative we inspire, educate and support diverse global cultures with extraordinary artists such as Mao Ya, Sachiko Suga, and Yukari, who were featured in concert on March 18th. The concert was an outstanding success. We received glowing remarks, public acclaim and requests for more multicultural Arts projects.

The National Association of Women for the Arts is a nonprofit arts advocacy organization that promotes global understanding and cultural awareness. The mission of the National Association of Women for the Arts is to promote intercultural dialogue, build global partnerships that increase diversity and provide broader access for community participation in the Arts through artistic and educational initiatives.

We look forward to future collaborations with the Japan UN Friendship Associations, and deeply appreciate your generosity.

Sincerely,

Sandra E. Berger,
President
